ADVANCES IN THE MARKET

Sugar the Only Exception Noted in a General Gain.

Industrial Shares Not Particularly Prominent, But Holding a Position of Strength-Less Apprehension of Trouble in the Transvanl Animates Shares on London Stock Board.

New York, Aug. 17.-With the noteworthy exception of Sugar Refining, the market opened showing general and promounced gains. Trading was exceedingly animated and again well diversified. There was no particular gossip connected with the weakness in Sugar. Efforts were apparent to create the impression that the selling of the stock was for the account of large capitalists' interests in the property, but there were no more than the usual board room warrants for such opinions. Aside from Sugar Refining the Industrial stocks were not unduly prominent in the dealings and for the most part they were Material advances were shown in People's Gas. Tobacco stocks, American Smelting and Tennessee Cosl and Iron. In the railway list the strongest features were Louisville and Nashville, Southern Railway preferred, Northern Pacific, the Atchisons and Southern Pacific. The Lon-don market was reported quite builish, and its tendency reflected both the decrease in apprehension in regard to the situation in South Africa and the retenof the Bank of England's discount rate at 3 1-2 per cent.

The bank statement showed a material

strengthening of its position since last week. Its ratio of reserves rising one-half per cent. Foreign houses were buyers of

The early market today was fairly active and strong. Sugar was erratic, with a decline and then an upturn that to many seemed likely to be continued to much higher prices. The Tobacco issues were rather weak and the Coal and Iron stocks relatively strong. Louisville and Nash-ville and Southern Pacific were active and strong. The railway list in general exhibit-ed a fairly strong upward tendency Money continued easy, as it has all this week, somewhat to the surprise of the bankers, who have expected better rates on account of the general ac-tivity of business. The cheapness of call loans favors the bulls, but if the leaders will not buy stocks no movement will be started without them. The continuance of the excellent railway earnings, contrary to the prediction of the bear "experts," and the advances in the price of also seem to preclude any decline in prices.

There are as yet few predictions as to the character of this week's bank statement, but the cheapness of money and the fact that Chicago in undoubtedly lending money in New York suggest that it will not be

Louisville and Nashville continues to advance. Few days pass that do not see some advance in the price of this stock. The movement is a comparatively slow one, a point or two each week, but there was movement is a comparatively slow one, a point or two each week, but there was nover a more steady advance in the stock market. Beginning with last May the low price was 631-8 and the high 681-8. The high price in June was 711-4. In the first week of July the high price was 721-2, and the low price 713-8; in the second week the high was 722-4 and the low 75-8; in the high was 72 3-4 and the low 70 5-8; in the third week the high was 73 5-8 and the low 71 1-8, and in the last week of the month the high price was 76 and the low mouth the high price was 76 and the low 72. During the present month so far the highest price of the first week was 76 and the lowest 74 1-8; highest of the second week, 75 5-8 and the lowest 74 3-8, and the highest of the present week that the lowest being above 75.3-8. Conserva-tive people, familiar with the business of the system believe that the top price for the stock is yet a good many points above the present level.

The boom in Southern Pacific and Cen tral Pacific this week has been a skillful and persistent one. The advance this morning in Southern Pacific was to a point or more above yesterday's level and the boomers seemed determined to advance the stock above 40. It is said that the consummation of the Southern Pacific-Central Pacific deal is nearly completed and that Mr. Huntington promises earnings of 6 per cent on the new stock.

Atkinson continues very strong and the other grangers although inactive this morning were also well held. The earnings of this group continue to show up so

DR. KILMER'S SWAMP-ROOT

is No: Recommended for Everything. But If You Have Kidney or Bladder the Remedy You Need.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor, and cheerfulness soon disappear when the kidneys are out of order or

that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, and it is yet afflicted with bedwetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be toward the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit

so most people suppose.

So we find that women as well as men are made misscable with kidney and bladder trouble and both need the same remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bettle by mail free, siso pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Bing-hamton, N. Y., mention The Washington Evening Times.

Pennsylvania Avenue and Seventh Street.

Suits, striped pattern, made with full blouse and worth 39c. 180

Saks & Company.

agnificently that the bears are afraid to sell the stocks. St. Paul for the second week of August reports gross earnings of \$721,271 an increase of \$106,064. It is said that the net carnings of Rock Island for the month of July will show a net increase of \$157,000, and that the net for Atchison will be \$700,000.

The Carnegie Steel Company has not ye been financed, but it is said that the deal will now be made in a short time. As far as can be learned Mr. Frick, in his nego-tiations with the capitalists, refused to put out any water common stock as a bonus for them. If this is the true status of the case it shows a commendable conservatism on the part of Mr. Frick which should not do his company any damage in the long
